

Mission Central UMCOR Hygiene Kit Instructions— Page 1

Health kits provide basic necessities to people who have been forced to leave their homes because of human conflict or natural disaster. Health kits are also used as learning tools in personal hygiene, literacy, nutrition, and cooking classes.

All items must be new. Do not wash any of the items as they will be considered used. Please remove all packaging except for nail clippers, toothbrush and soap. All emergency kits are carefully planned to make them usable in the greatest number of situations.

Since strict rules often govern product entry into international countries, it is important that kits contain only the requested items—nothing more. **DO NOT** include any personal notes or additional materials in the kits.

These things must be painstakingly removed and will delay the shipment.
